Happy New Year! The end of 2006 and the beginning of 2007 continue to show an improvement in the TBM market with another nine TBM 700/850 aircraft trading hands. Presently there are only twenty four pre-owned TBM's for sale which is only 7% of all the TBM's manufactured. With less inventory available prices have stabilized and in some cases are starting to increase. The buyers market has ended and we expect to see aircraft trading closer to their asking prices. For those who continue to wait on the decision to buy the best single engine aircraft ever produced it will cost you more the longer you wait.
