I had the opportunity to attend the EBACE Aircraft convention in Geneva, Switzerland the week of May 20th where I met my good friend Jacques Lemaigre du Breuil who is the founder of JetFly which is based in Europe. They operate a fleet of TBM 700's and PC-12's for fractional ownership within Europe and announced at EBACE an order for four TBM 850's and four Piaggio Avanti II aircraft. Congratulations to JetFly as the most successful fractional operator within Europe. For those based in Europe you can find additional information on JetFly's fractional ownership program by visiting their website at www.jetfly.net. The demand for the TBM 850 has been overwhelming which has increased the demand for late model pre-owned TBM 700's. From January to present there have been twenty five pre-owned TBM 700/850's sold so if this trend continues we could see a record breaking year of more than sixty pre-owned TBM's sold this year.

Please take a moment to visit our website at www.cajjets.com to learn more about the TBM and view the following TBM's we have for sale.
