In January of 2006 there were 34 TBM 700's for sale compared to only 23 TBM's for sale today. There were eight TBM's sold since our last newsletter which is above the average of four to six TBM's that typically trade every two months. The activity and demand has increased over the last several months as buyers are realizing the overall value and performance of the TBM 700/850 compared to the very light jets. With demand up and supply of pre-owned aircraft diminishing we expect 2007 to be a record setting year for the TBM 700 and 850.

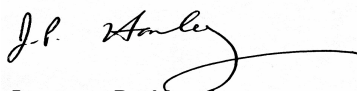

Please take a moment to visit our website at [www.caijets.com](http://www.caijets.com) to learn more about the TBM 700 and view the following TBM 700's we have for sale.
