\*Owned or exclusively represented by Corporate AirSearch Int'l, Inc.

The TBM market continues to shine as buyers realize the performance and fuel savings of the TBM make it a cost effective travel tool. With the first TBM delivered to a customer in 1990 Socata has an 18 year track record of producing the fastest, most dependable, highest quality single engine turboprop in the world. The TBM 850 glass panel is sold out through 2008 so buyers wanting a TBM in 2008 will look to the pre-owned market which will decrease supply and increase pricing so now is the time to buy a TBM before pricing increases. We have seen the same thing occur in the PC-12 market where 2006 PC-12's are now selling at a premium of \$300,000 to \$500,000 above the sales price when the aircraft was purchased new. Happy Holidays to all!

Please take a moment to visit our website at [www.caijets.com](http://www.caijets.com) to learn more about the TBM and view the following TBM's we have for sale.
